

ZERO COST-SWAP PROGRAM

Replace broken, offline, or aging EV chargers – at no cost.

IS THIS YOUR BUSINESS?

"Customers aren't coming to charge while they shop."

"We don't to spend the money to replace our charger."

"My charger's broken – and I can't get service."

"Our vendor disappeared – we're stuck with broken equipment."

"EV drivers are leaving bad reviews."

Outdated, broken, or offline EV chargers are costing site hosts thousands in lost business and lost charging revenue while eroding trust with customers and EV drivers.

The Everged Zero Cost-Swap Program is here to change that! The Everged program will replace broken or unsupported equipment with modern, networked chargers— at no cost to your business.

We handle it all: removal, installation, activation, and ongoing maintenance.

WHAT YOU RECEIVE

Zero Cost – Fully funded hardware and install

Modern Technology – Reliable level 2 chargers

MAINTENANCE – 24/7 monitoring and remote diagnostics

Full Support – Ongoing service and driver support

Charging Revenue – Earn passive income

HOW IT WORKS

- 1 Submit your site info at get.Everged.com/Zero-Swap
2 We assess your location and needs
3 Our team removes the old charging equipment
4 New Everged Chargers are installed and activated
5 You enjoy uptime, support, and a share of the charging revenue
